Summary

MCA Data Science & AI student with practical experience in Python, SQL, Power BI, and data analytics projects. Looking for an entry-level Data Analyst role to apply analytical, visualization, and problem-solving skills.

Skills

Technical Skills: Python, SQL, Excel, Power BI, Tableau, Machine Learning

Data Analysis Visualization: Data Visualization, Exploratory Data Analysis (EDA), Statistical Analysis, Insight Generation

Reporting Business Intelligence: KPI Reporting, Dashboard Creation (Power BI, Tableau)

Tools: MS Word, Advanced Excel

Experience

Data Analytics Virtual Intern

June 2025– July 2025

Deloitte– Forage (Virtual) | Tools Used: Excel, SQL, Power BI

- Performed data analysis and interpretation tasks to derive actionable insights.
- Worked on analytical problem-solving and reporting based on case studies.

Projects

Retail Food Price Analysis and Prediction | *Python, Streamlit, SQL*

February 2026 – May 2026

- Developed an end-to-end machine learning solution to analyze market trends and predict pricing outcomes with improved accuracy.
- Built and compared multiple predictive models, including Linear Regression and Random Forest, to identify the most effective algorithm.
- Integrated structured data pipelines for efficient preprocessing, transformation, and storage using SQL-based systems.

Netflix Content Analysis | *Python, Pandas, Matplotlib*

November 2025 – November 2025

- Cleaned and analyzed a Netflix dataset containing 8,000+ records.
- Performed exploratory data analysis to study genres, ratings, and content trends
- Created visualizations for movie vs TV show ratio, top genres, and yearly content growth.
- Identified popular actors, directors, and country-wise content distribution.

Online Retail Sales Analysis | *Excel, ML, Python, SQL, Tableau Public*

December 2025 – January 2026

- Analyzed 7,000+ retail transactions to evaluate sales performance and customer behavior.
- Processed data from 2,700+ unique customers across multiple countries.
- Calculated key KPIs including 3.1M+ total revenue, 7,000+ orders, and 450+ average order value.
- Wrote SQL queries to extract insights on monthly trends, top products, and regional performance.
- Built an interactive Tableau dashboard with 5 analytical views and global filters for data exploration.

Certifications

- Data Analytics Job Simulation – Deloitte(2025)
- AI Analyst, Machine Learning with Python, Python for Data Science, NoSQL & DBaaS – IBM (2025)

Education

Master of Computer Application (Data Science & AI)

2024-2026

Babu Banarasi Das University, Lucknow

Percentage: 69.3

Bachelor of Computer Application)

2021-2024

Ambalika Institute of Higher Education, Lucknow

Percentage: 71.7
